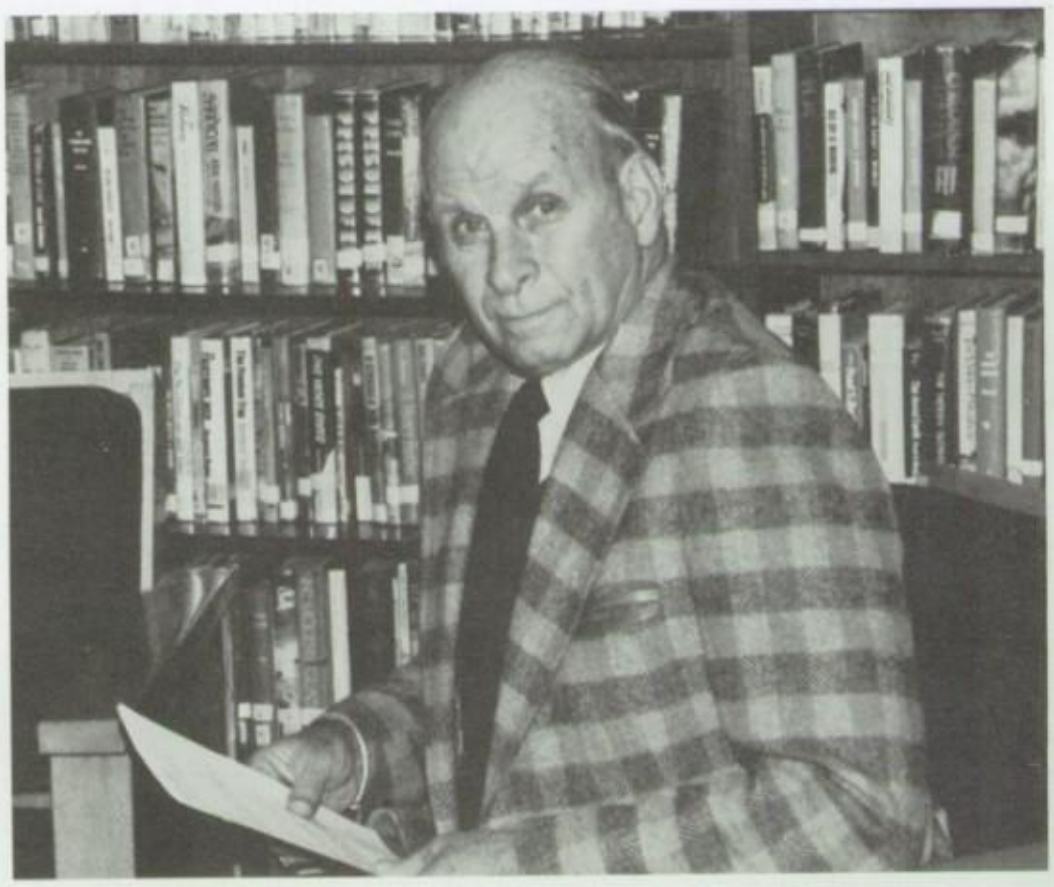
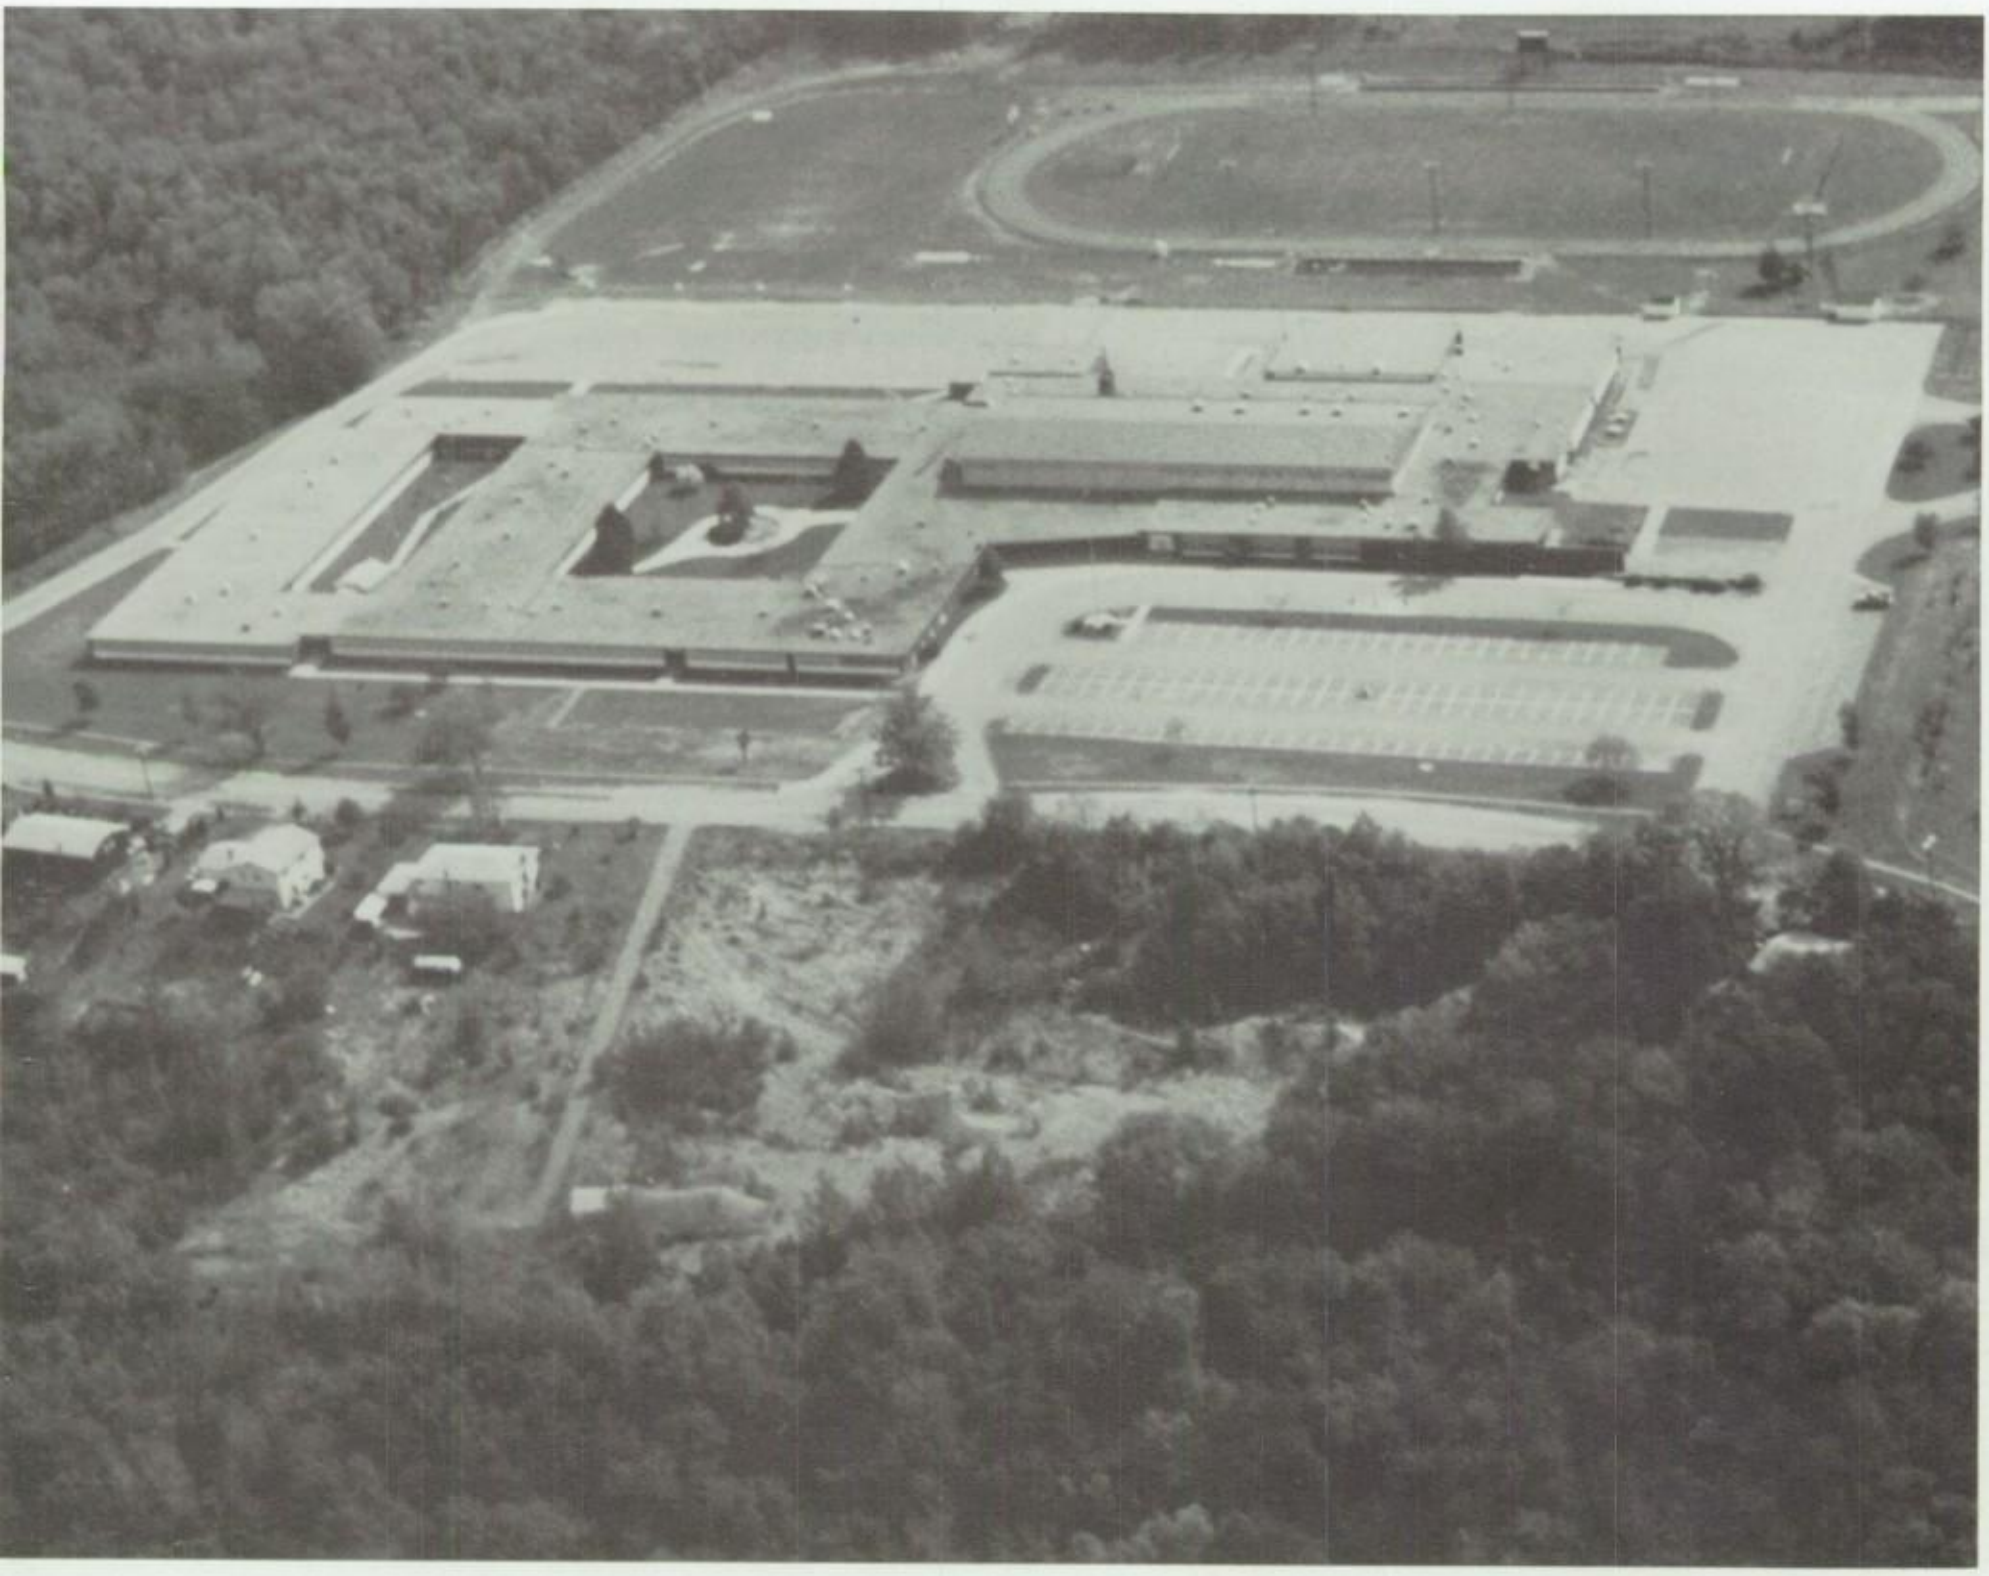
1984 Walam Olum

The Class of 1984 would like to dedicate its yearbook to Mr. Dominic Guazzo for all of his time, support, caring and most of all — his friendship. Thank you.





The 1984 yearbook staff has decided that we would return to a decision that was made nineteen years ago concerning the name of the yearbook. We have named this yearbook the *Walam Olum* and the following is the description which was used in the first yearbook to explain the *Walam Olum.*

"Montville High School's first two years have abounded with precedent making events. One such event was the choosing of the name of the school's first yearbook. With much thought and effort the yearbook's staff endeavored to select a name which would exemplify the spirit and meaning of a yearbook. *Walam Olum,* an Indian word meaning a 'painted record,' was the staff's final decision.

"*Walam Olum* recorded ancient tribal traditions of the Indians. It was customary for the Indian tribes to make pictographs on bark, and in ceremonies the elders narrated events using the pictographs as guides.

"Thus, *Walam Olum,* the name of Montville High School's yearbook excellently portrays what our first yearbook is — a picture record of events and activities of a new and expanding high school."

Though almost twenty years have passed, we, the yearbook staff, feel that the name *Walam Olum* perfectly describes our yearbook.

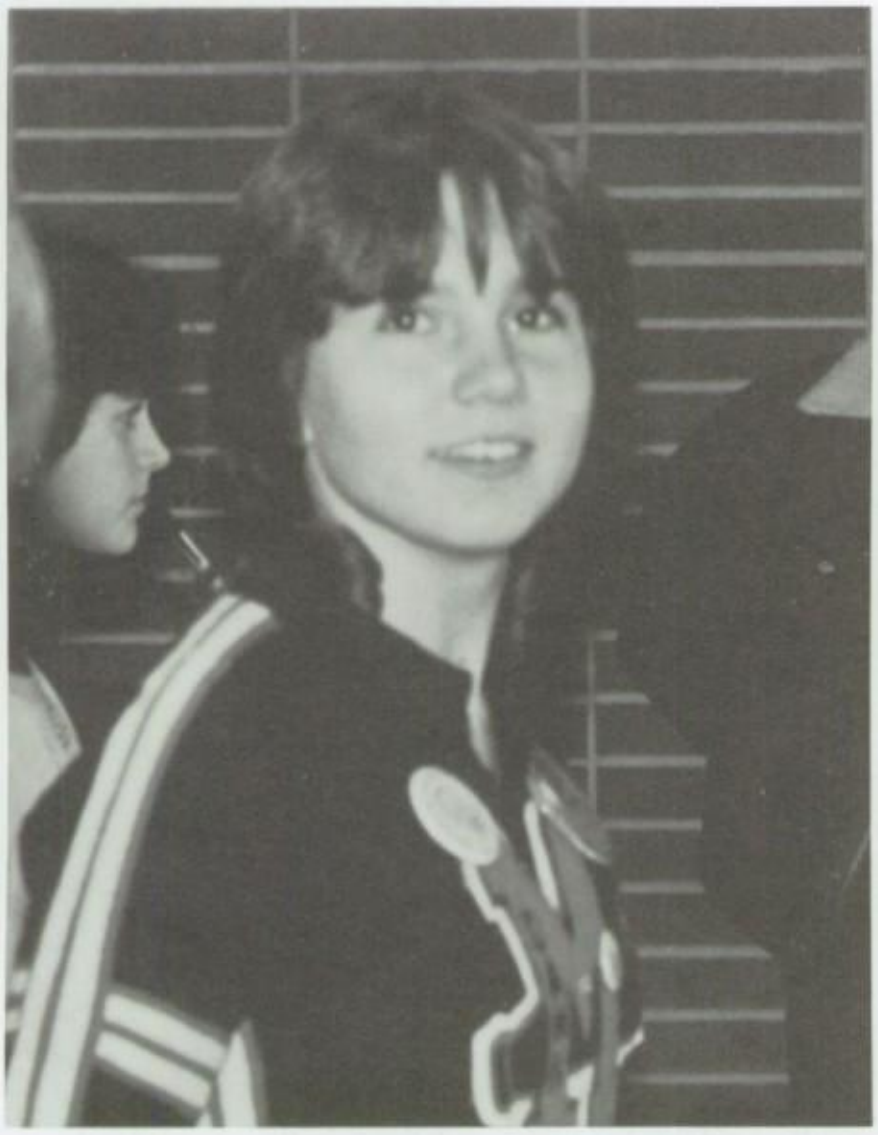
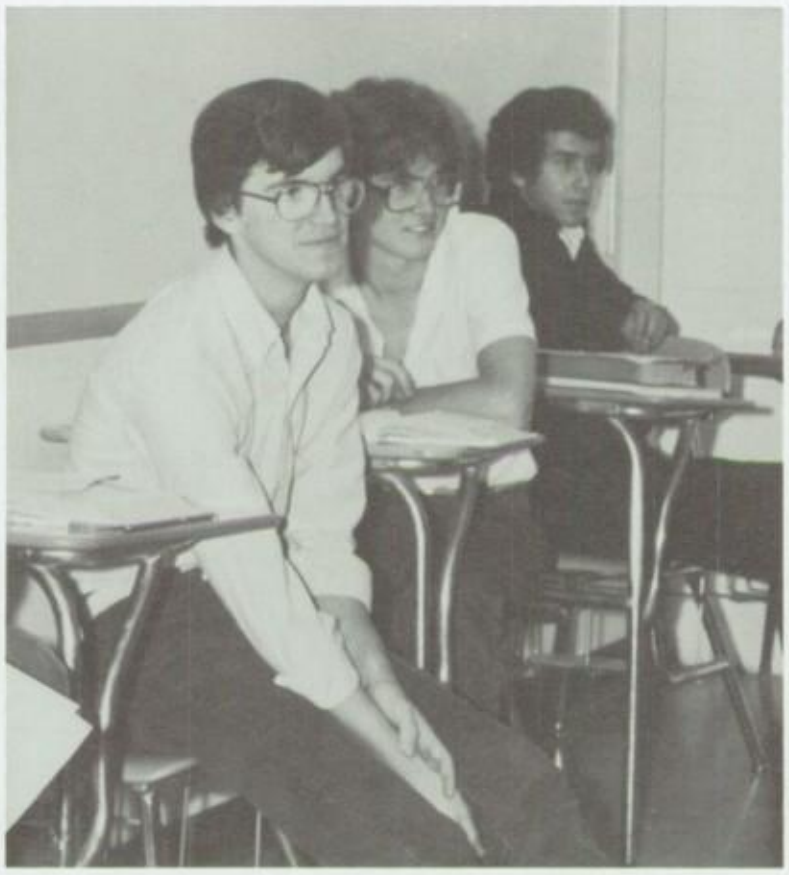
ADVENTURES

MONTVILLE

HAVE A





Facing Graduation

Faces of old and faces of new,
People we know and people we knew.
Growing together then drifting apart,
Always an ending and now a new start.
At graduation we all grow nearer
And all our friends seem so much dearer.
And as we say our final good-bye,
One last embrace and one more cry,
A "keep in touch" and a "promise I will"
A "remember when" but, better still,
A place in my heart, you'll always stay,
This is what's said as we go our own way.

OPEN ARMS

Lying beside you, here in the dark
Feeling your heart beat with mine.
Softly you whisper, you're so sincere
How could our love be so blind.
We sailed on together, We drifted apart
And here you are by my side.

So now I come to you with open arms
Nothing to hide, believe what I say
So here I am with open arms,
Hoping you'll see what your love
means to me . . . Open arms.

Living without you, living alone
This empty house seems so cold.
Wanting to hold you, wanting you near
How much I wanted you home.

But now that you've come back,
Turned night into day
I need you to stay.

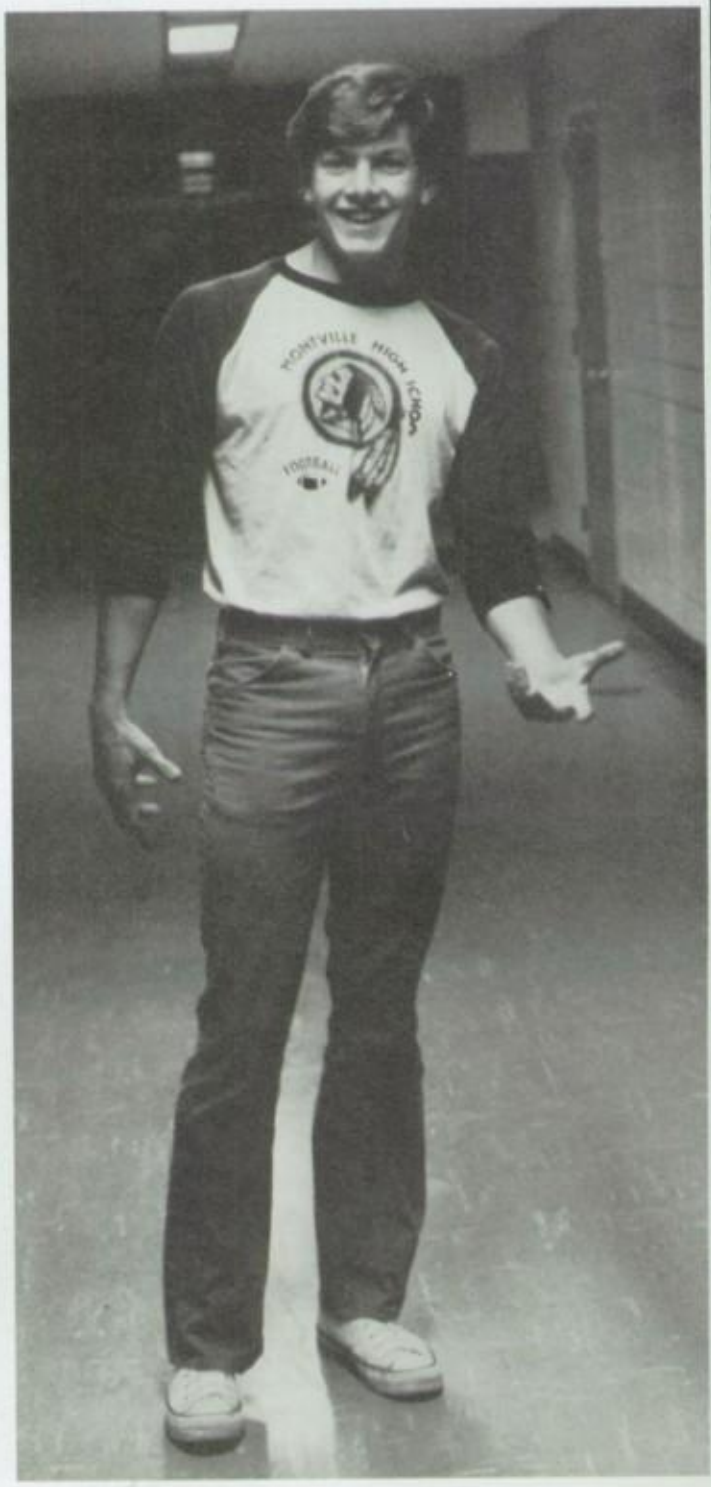
FIGHTER BOMBER

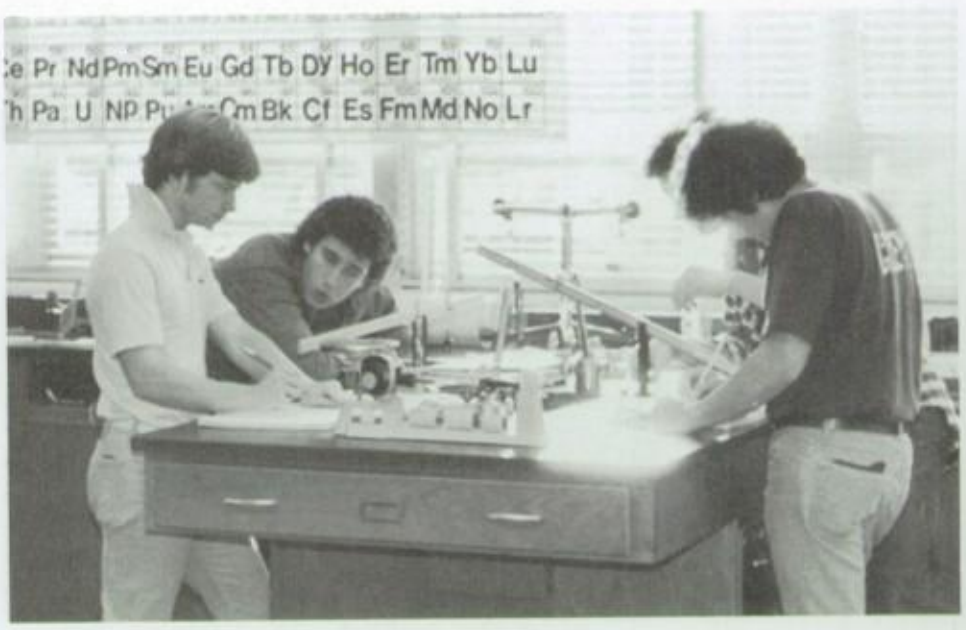


Would Playgirl be under entertainment?!

I finally broke the U.S. security code!!!

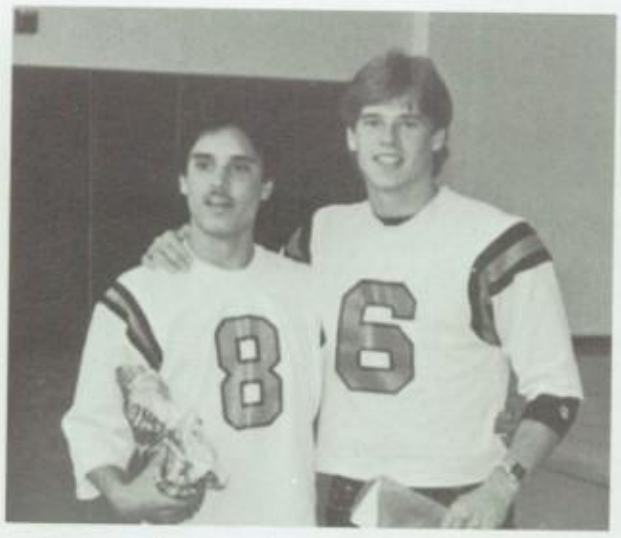
Put your head on my shoulder!

Little sisters can be *so* embarrassing.



It's 45 cm., not 54g.

That's disgusting.

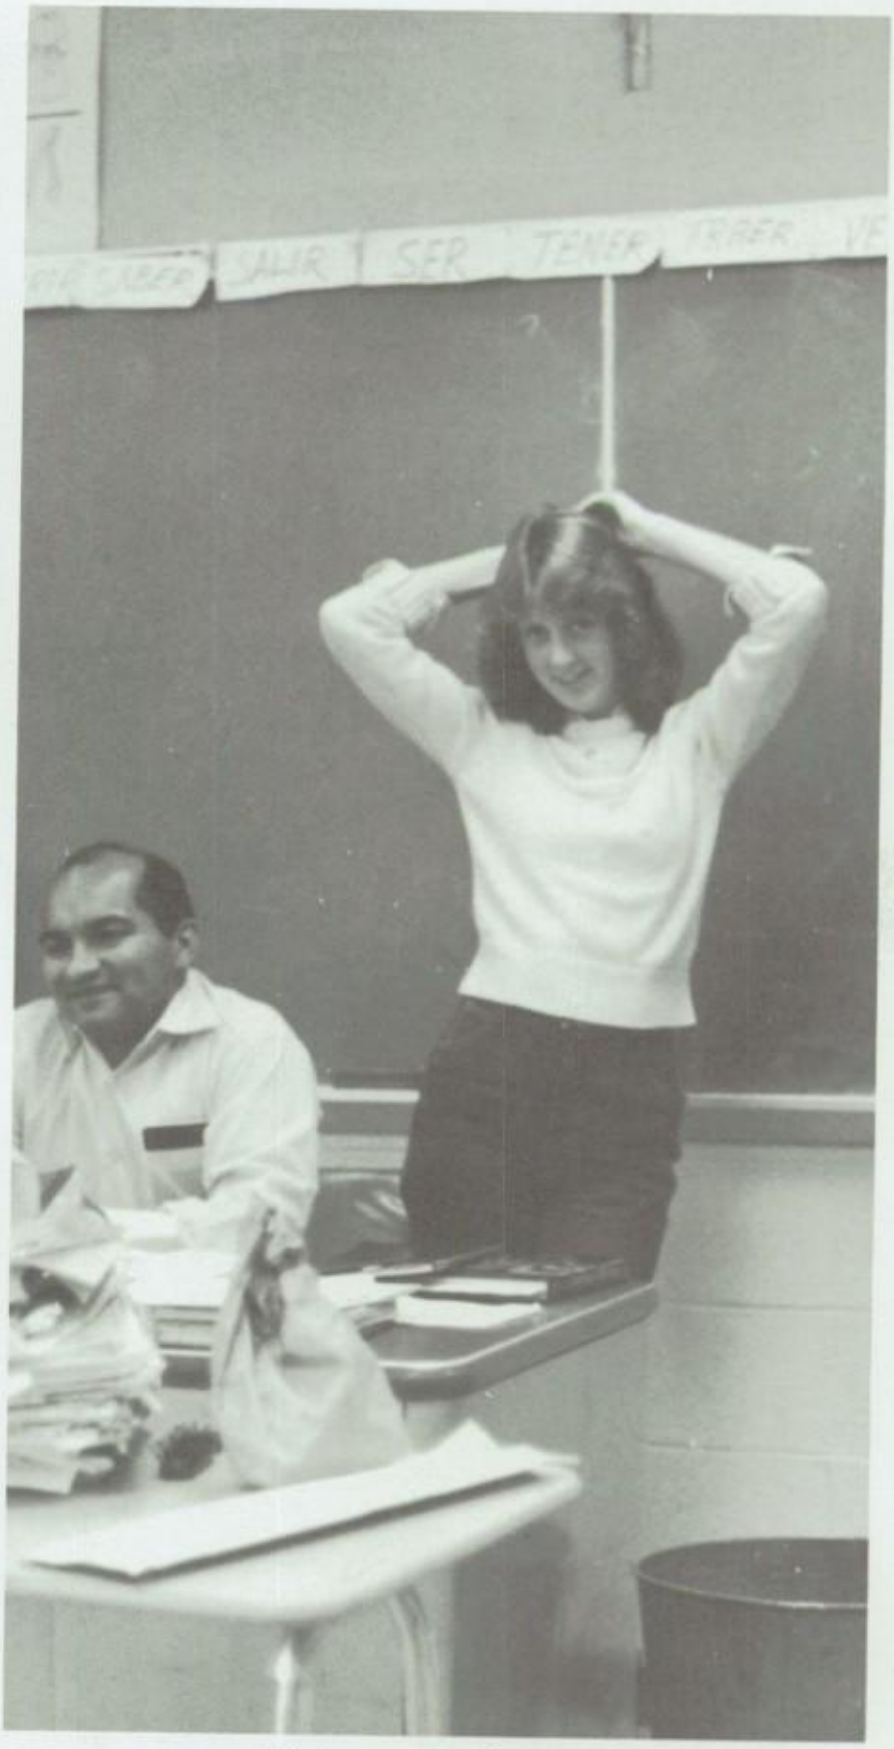


Hey — when you've got it, you've got it!

Larry, Curly and Mo!

Get It!

Porky's Police Lineup!



I'll do anything for an A!

General Dynamics Electric Boat Division has helped shape the course of naval history for more than three-quarters of a century. In 1900, the company delivered the first submarine HOLLAND, and since then has built over one-half of all the submarines for the U.S. Navy. In 1954, it launched the world's first nuclear submarine, NAUTILUS. It also designed the Navy's fleet of ballistic missile submarines and built GEORGE WASHINGTON, the lead ship.

Today, Electric Boat Division, as designer and builder of the new Trident missile submarine, remains the free world's leader in submarine technology, continuing to produce the most efficient and sophisticated undersea craft in the world.
